		-	

Open your image and go to the "Export the volume" icon located on the left side of your screen.

	In the pop up window, you'll
5	notice 3 different sections. On
	the first section, click "Browse"
	to select the export location.

Another pop-up will appear. Select the folder you just created on the desktop. Click "OK".

EXPORTING FROM CARESTREAM

5

The second pop-up will disappear. Section 2 options should never have to be changed. Under section 3, select "CT (one file per slice)" and "Uncompressed" . Please unsure that "Create DICOMDir" remains UNCHECKED. Click "Export".

After the DICOM exports and saves, go to the patients folder and verify the .dcm files were exported correctly; there should be several hundred files.

Go back to the desktop, right click on the patients folder, go to "Send to", and select "Compressed (zipped) folder". A duplicate folder will be made with either a zipper on it, or a blue "Z".

2
5

To upload the compressed folder, login to Implant Concierge. Click on the patient's name to open the case. Click on the red "Upload DICOM" button.
