

Please follow these instructions if you are exporting from ICAT Software. If you are using an ICAT machine, but have TxStudio / Invivo software, please follow those instructions.

On your desktop, right click on an empty space. Go to "New" and click "Folder". A folder will appear with highlighted blue text. Type in the patient name and push "Enter" on your keyboard.

2 In the patient database, click on the patient name, and select the most recent CBCT. Click "Export".

A pop-up will appear with the save location. Under "Export Type" ensure it reads "DICOM 3 (Multi-file)".

4

Select the folder you just created on the desktop. Click "Open" and "Export".

After the DICOM exports and

saves, go to the patients folder and verify the .dcm files were exported correctly;

there should be several

hundred files.
