

SEND STL FILES FROM ITERO

If you have an iTero machine and you would like to send Implant Concierge™ your digital impressions, you must contact iTero technical support (800-577-8767) and add us as a Lab: #12385. Usually within 24 hrs, Implant Concierge™ will be notified that the files are ready to be downloaded. We will then upload the files to your Implant Concierge™ case.
